HOW SCOPED

02 · WHAT WE'VE LEARNED

The leads are real. Converting them is a journey, not a transaction.

01 The key insight: these golfers are affluent, already insured, and usually already have a broker.

02 It's a positioning and journey challenge, not a lead problem. The first touch has to spark curiosity, not feel like a pitch.

03 Warm, curated, golfer-to-golfer conversations convert — and a tangible switch incentive gives the advisor a natural opening.

03 · WHAT WE'RE **REFINING**

From a standard sponsor to a foreground insurance hook.

Background sponsor	→	Foreground insurance hook
Indwe in swing-purchase T&Cs		Get a quote from Indwe
Cold outreach	→	Golfer-to-golfer conversation + WhatsApp
Any lead	→	Curated handover of quote-ready leads only

04 · WHY THE PARTNERSHIP MAKES STRATEGIC SENSE

The hardest part is solved — and the model compounds.

- 01 We're reaching the right audience.** Affluent leads are real and flowing — the most difficult part of any insurance funnel is already working.
- 02 Get Lucky is central to Indwe's growth** — front and centre in two of the strategic initiatives — affluent leads and partnerships.
- 03 The model compounds.** A recurring membership relationship + national broadcast + 150,000 golfers means reach that grows season on season.
- 04 A clear, phased route to returns.** The Year-1 lead targets will materialise, and investment will be offset through lifetime value from new business written in this year. Indwe is building sustainable commercial value through relationships with a growing database of high-net-worth individuals.

★ OUR MISSION

Indwe will drive growth through the Get Lucky brand engagement engine, becoming the trusted insurance broker for golfers across South Africa.
